

HONEYBEE TRANSPORTATION MANAGEMENT SYSTEM (TMS)[™]

Automate labor-intensive tasks and strategically manage transportation costs throughout your entire supply chain.

Fully Integrated Honeybee TMS[™] Solution for Inbound and Outbound Transportation

From receipt to execution, CTSI-Global's integrated, software-as-a-service (SaaS) solution makes transportation management simpler, more powerful, and more cost-effective than ever before.

Order Management

Receive, revise, schedule, and confirm. CTSI-Global's Order Management solution enables you to move away from decentralized systems and begin processing orders simply, easily, and electronically.

Load Optimization

Consolidate, find the lowest-cost route, and boost the bottom line. Optimize every shipment based on size, weight, loading requirements, or your own custom criteria.

Carrier Selection

Overwhelmed by options? Find the optimal carrier every time with a simple, centralized solution and online freight quotes.

Shipment Execution

Automate load tendering quoting, confirmation, and shipping while matching your requirements and preferred carriers.

Claims Management

Our fully integrated Claims Management solution has the flexibility you need to handle loss and damage claims through to resolution.

Event Management

Track shipments with pre-shipment, post-shipment, and in-transit visibility with automated exception alerts.

Benefits of Honeybee TMS[™]

Reduce time-consuming manual tasks while boosting productivity, cutting costs, and much more with CTSI-Global's world-class Honeybee TMS[™] solution.

Significant, sustainable **cost savings** via load optimization, carrier selection, invoice processing, supply chain management, and reduced manual tasks.

Cut through the clutter of overwhelming options and make the optimal choice every time.

Fully integrated Honeybee TMS[™] applications work seamlessly with one another for perfect control and flexibility.

Complete **visibility** into all aspects of the supply chain.

Improved efficiency and control with streamlined execution from order to payment.

Reduce risks and improve claims management for **happier customers and easier compliance**.
